

MAKING WAVES

Local salon is turning tired tresses into healthy hair.

Say goodbye to stick-straight locks, shelve that flat iron, and embrace your natural waves this summer. At least, that's what those in the know are encouraging. "Bold yet natural is in," says Alex Iacobacci, owner of Newbury Street's Avanti Salon. He advises boosting your natural look by making hair vibrant, shiny, and rich. To that end, Avanti is offering a caviar rejuvenation treatment for dry and damaged hair. The three-step process includes a clarifying wash, repair serum, and protein shield. —Amanda Ernst
